p.m .Bids Due: August 31,
2023 by 2:00 p.m.

PWSA is requesting bids for
the Highland Reservoir Pump
Station Project-General
Contract. The scope of work
generally includes
construction of a new
pumping station building and
all phases of process-
mechanical, structural,
architectural, site work, site
piping, and all associated work
not specifically assigned to
another contract; structural,
architectural, and process
work associated with the
rehabilitation of the existing
chemical facility at the
Highland 2 Reservoir Effluent
Gatehouse; construction of a
chlorine residual monitoring
shelter, including equipment
installation, piping and
appurtenances; Demolition of
the existing pumping station
building including removal and
disposal of all structural,
architectural, and process-
mechanical components of
the existing building. The
General Contractor is also
responsible for developing and
maintaining an overall
contract schedule of all four
prime contracts: 1-General,
2-Electrical, 3-HVAC,
4-Plumbing.
