

RAILROAD PROJECT MATERIALS QUOTE SOLICITATION

The Wheeling & Lake Erie Railway is receiving quotes to supply materials needed to complete a continuous welded rail project in Pennsylvania (Westmoreland & Fayette Counties). This project will be funded partly by a grant made possible by PennDOT, and strict adherence to the Bureau of Rail Freight's policies and guidelines is required. The quote package can be obtained by contacting tracy@railroad-solutions.com. Sealed quotes must be submitted by 4:00pm on September 7, 2023, when the quotes received will be publicly opened and read aloud.
