

"Growing Old Together"

You marry and take the vows
And you go through life's
tribulations
And you go through the
wonderful times
And those unforgettable
celebrations

But some of the times
weren't easy
As you experienced the
downfalls of life
But you got through the pain
together
And stayed strong in those
times of strife

Growing old together was
beautiful
And it was love that got you
both through it
And you knew without the
help of each other
There was just no other way
you could do it
