

"Free As A Bird"

Oh yes to feel like you're flying
To some distant place in
the sky
Just spreading your wings
abroad
On a wonderful natural high

Not bound to no one in
particular
Just soaring through life
with ease
And singing that happy song
With all of the birds and
the bees

Yes going through life carefree
Traveling to places unknown
No car, no bus, no train,
And never having to pick up
a phone
