

Early Notice and Public Review

of a Proposed Activity in a 100-Year Floodplain

To: All interested Agencies, Groups, and Individuals

This is to give notice that Allegheny County has determined that the following proposed actions under the Community Development Block Grant (CDBG) Program are located in the 100-year floodplain, and Allegheny County will be identifying and evaluating practicable alternatives to locating the actions in the floodplain and the potential impacts on the floodplain from the proposed actions, as required by Executive Order 11988, in accordance with HUD regulations at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management and Protection of Wetlands. **FY23**

East Deer Meadow Street Reconstruction:

This project involves 1,075 square yards of milling, installation of 90 tons of scratch level course and installation of 1,075 square yards of overlay on Meadow Street in East Deer Township. This action involves less than one acre located in a 100-year floodplain A Zone (area of special flood hazard without base flood elevation or depth) per FEMA Flood Insurance Rate Map (FIRM) Panel 42003C0235H, effective 9/26/2014. **FY23**

Terrace Drive Sanitary Sewer Lining:

This project involves the installation of a sanitary sewer liner and related work (i.e., tap reinstatements and bypass pumping) located along Terrace Drive and Guys Run Road Pittsburgh, PA 15238. This action involves less than one acre located in a 100-year floodplain A Zone (area of special flood hazard without base flood elevation or depth) per FEMA Flood Insurance Rate Map (FIRM) Panel 42003C0236H, effective 9/26/14. **FY23**

Storm Sewer Separation-Millvale:

This project involves the installation of a separate stormwater system approximately 900 feet along Lincoln Avenue and Wehple Street in Millvale Borough. This action involves less than one acre located in a 100-year floodplain A Zone (area of special flood hazard without base flood elevation or depth) and less than one acre located in the Regulatory Floodway per FEMA Flood Insurance Rate Map (FIRM) Panel 42003C0351H, effective 9/26/14. **FY23**

Crystal View/Ferry Street Sanitary Lining:

This project includes 675' of 8", 2,485' of 12" and 1,600' of 15" sanitary sewer liners and associated work such as bypass pumping and pre/post CCTV along Crystal View Drive, down Freepport Road, across the railroad tracks, along Iron City Brewery's property, and over to Ferry Street in East Deer Township. This action involves less than one acre located in a 100-year floodplain A Zone (area of special flood hazard without base flood elevation or depth) and less than one acre located in the Regulatory Floodway per FEMA Flood Insurance Rate Map (FIRM) Panel 42003C0234H, effective 9/26/14. **FY23**

Center-South Waterline Replacement:

This project will replace 1,800 linear feet of aged waterline located at the intersection of Seibert Street & Center Street and runs along Center Street to River Road then proceeds along South Avenue to the dead end in Sewickley, PA 15143. This action involves less than one acre located in a 100-year floodplain A Zone (area of special flood hazard without base flood elevation or depth) per FEMA Flood Insurance Rate Map (FIRM) Panel 42003C0168H, effective 9/26/14. **FY23**

Combined Sewer Outfall Rehabilitation:

This project will consist of the replacement of the river backflow devices, Outfall Pipe and end-wall rehabilitation, installation of watertight manhole, castings on CSO structures, installation of new access hatch, installation of concrete swale, Rip-rap stone, tree trimming and site accessibility, and E&S controls located at Market St. and Water St, Plum St. and Water St., River Alley (aka Locust St) from intersection of Church Street and River Alley on Fallen Timber Stream, and at the Boat Launch off 2nd Street and Center Street in Elizabeth Borough. This action involves less than one acre located in a 100-year floodplain A Zone (area of special flood hazard without base flood elevation or depth) and less than one acre located in the Regulatory Floodway per FEMA Flood Insurance Rate Map (FIRM) Panel 42003C0949H, effective 9/26/14. **FY23**

Valley Avenue Culvert-Phase II:

This project involves the installation of 508 LF of 72" concrete storm piping to replace the current rusted piping that is in danger of collapse. The project starts at the culvert from access manhole behind 900 Patterson manhole downstream to discharge at north of Wall Avenue in Wall Borough. This action involves less than one acre located in a 100-year floodplain A Zone (area of special flood hazard without base flood elevation or depth) per FEMA Flood Insurance Rate Map (FIRM) Panel 42003C0393H, effective 9/26/14. **FY23**

Catch Basin Replacement - Braddock:

This project involves the removal of existing catch basins and the installation of new Type M precast concrete basins located at 5th St. and Washington Ave, 7th St. and Washington Ave., and the Northwest corner of 7th St and Washington in the Borough of Braddock. This action involves less than one acre located in a 100-year floodplain A Zone (area of special flood hazard without base flood elevation or depth) per FEMA Flood Insurance Rate Map (FIRM) Panel 42003C0388H, effective 9/26/14. There are three primary purposes for this notice: First, people who may be affected by activities in floodplains and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Commenters are encouraged to offer alternative sites outside of the floodplain, alternative methods to serve the same project purpose, and methods to minimize and mitigate impacts. Second, an adequate public notice program can be an important public educational tool. The dissemination of information and request for public comment about floodplains can facilitate and enhance Federal efforts to reduce the risks and impacts associated with the occupancy and modification of these special areas. Third, as a matter of fairness, when the Federal government determines it will participate in actions taking place in floodplains, it must inform those who may be put at greater or continued risk. Written comments must be received by Allegheny County at the following address on or before October 13, 2023: Allegheny County Economic Development, Koppers Building, 436 Seventh Avenue, Suite 500 Pittsburgh, PA 15219, Attention: Jim Johnston, Operations Manager or by email at jim.johnston@alleghenycounty.us. A full description of the project may also be reviewed Monday through Friday between 9am and 4pm at the same address stated above.
