

# BRANDON ROBERT DEAH

Even though you have lived in various places for over 30 years with the most time being in South Florida B, Pittsburgh was where your heart felt was your true home. I'm hoping more of your friends will see this and be able to jot down a few favorite shared memories in the guestbook option and nothing more than that. I can't believe it has been one year already since your passing but I can still hear

your voice, your little funny sayings and your infectious laugh as clear as if it was just last week. Your love of family, friends and zest for life is being missed by so many B. Keep making the magic happen my dear son.  
Love ya, Ma.
