

A
"Car Parts"
(Kind Of Love)

Like **"car parts"** she was all intact
Her **"high beams"** lighting
up the night
And talk about **"fuel injected"**
How she was just built so right

Many gentlemen callers
she had
But attracted to their
"throttle" she was not
There's no other way to put it
A very different kind of
"motor" she sought

One that was delicate
and **"oiled"**
And with a **"combustion"**
that would blow her mind
Kind of like
"a brand new engine"
That would run smooth as
any girl's behind

Yes a **"shock absorber"** indeed
To the menfolk who desired
her **"gears"**
Because this woman's
desire for **"exhaust pipes"**
Had seen too many
"rusted" years
