

*The... "Good Year"...  
Titanic*

May it shower you with  
precious jewels  
And with dreams that will  
never sink  
And your bearings stay good  
and strong  
Void of any kind of crash  
or kink

And may your direction  
always be starboard  
And it sail straight up to  
your shore  
And motor its way to  
your heart  
And bring you happiness  
and so much more

And on your journey to  
distant places  
May the sun always shine  
on you  
And not a drop of rain to fall  
Or any cold or ice to  
come through
