

This notification is required by Section 307 of the Pennsylvania Clean Streams Law. Extrel | Process Insights is submitting a National Pollutant Discharge Elimination System (NPDES) Individual Permit to Discharge Industrial Stormwater application for our facility (located at 575 Epsilon Drive, Suite 2, Pittsburgh, Pennsylvania 15238) to notify the Pennsylvania Department of Environmental Protection of our intent to comply with the requirements of 40 CFR 122.26 to discharge storm water from industrial facilities. Run-off from the facility will meet conditions for No Exposure Certification and discharge to an unnamed tributary of Squaw Run, which is designated as High Quality. Questions or comments should be directed to Connor Tamaki at the above referenced Extrel | Process Insights address.
