

Notification of Receipt of Combined Remedial Investigation Report and Cleanup Plan

Notice is hereby given that Duquesne Electric & Manufacturing Co. is submitting to the Southwest Regional Office of the Pennsylvania Department of Environmental Protection a combined Remedial Investigation Report and Cleanup Plan for a site located at 475 Butler Street, Etna Borough, Allegheny County. The report identifies an area of the site impacted by volatile organic compounds, polychlorinated biphenyls, and heavy metals. The site-specific standard will be applied to the identified impacts and the recommended remediation is elimination of potential exposure pathways through the use engineering and institutional controls. This notice is made under the provision of the Land Recycling and Environmental Remediation Standards Act, the Act of May 19, 1995, P.L.#4, No.2.
