

HITACHI RAIL STS USA, INC., headquartered in Pittsburgh, Pennsylvania, seeks a Scrum Product Owner 2. This is a hybrid position offering the ability to work from home up to 3 days per week, with 2 days per week required in the office. The Scrum Product Owner 2 will leverage technical knowledge of Railway transportation management systems (TMS) and Automated Train Supervisor (ATS) systems to develop detailed specifications for product features such that they can be utilized by software development teams to design, develop and implement software code. Apply at: <https://careers.hitachi.com>.
