Vendor Questions Due: April
18, 2024 by 4:00 p.m.

Bids Due: April 30, 2024 by
2:00 p.m.

The Pittsburgh Water and Sewer Authority is requesting bids for replacement and upsizing of its public water system including water mains, valves, service connections, and hydrants as required or directed. In addition to the water main work, various existing catch basins located adjacent to work areas will be replaced, buried sewer manholes will be raised to grade, and new sewer manholes will be installed as shown on Contract Drawings. PENNVEST funding requirements will apply to the project; this project is being federally funded by EPA financial assistance dollars and requires all contractors to demonstrate compliance with federal Executive Orders 11625, 12138, and 12432 and EPA Regulations at 40 CFR Part 33, through the detailed documentation of solicitation of Disadvantage Business Enterprises (DBEs). Contractors must demonstrate the Six Good Faith Efforts to identify and solicit DBE firms that are potential sources for any procurement action in the areas of project construction, equipment, services, and supplies by including state qualified small businesses, and minority and women owned business enterprises in the bidding process.
