

Our Summer Love

A wonderful memory it was
Making love in the sand
that night
How the ocean waves
were splashing
And the seagulls all in flight

And it was nothing to be
ashamed of
Our bodies entwined together
Both wrapped in each
other's arms
And how we wanted it to
last forever

But how life can change
on a dime
How the winds can blow
the other way
But to never ever forget
The love we made that day
